Filing # 261288050 E-Filed 11/12/2026 09:33:38 PM

IN THE CIRCUIT COURT OF THE ELEVENTH JUDICIAL CIRCUIT
IN AND FOR MIAMI-DADE COUNTY, FLORIDA

CIVIL DIVISION

NICOLE LOCKLIN, Democratic Nominee for U.S. Congress in Florida's 26th District for the 2026 General Election,

Plaintiff,

v.

THE OFFICE OF THE MIAMI-DADE COUNTY SUPERVISOR OF ELECTIONS and ALINA GARCIA, in the custodian's official capacity,

Defendants.
_____/

Case No.:

COMPLAINT TO ENFORCE THE FLORIDA PUBLIC RECORDS ACT AND PETITION FOR WRIT OF MANDAMUS

REQUEST FOR IMMEDIATE HEARING UNDER § 119.11(1), FLA. STAT.

Plaintiff NICOLE LOCKLIN, Democratic Nominee for U.S. Congress in Florida's 26th District for the 2026 General Election ("**Plaintiff**"), pursuant to Article I, Section 24 of the Florida Constitution; Sections 119.01, 119.07, 119.11, and 119.12, Florida Statutes; and Florida Rule of Civil Procedure 1.630, sues MIAMI-DADE COUNTY SUPERVISOR OF ELECTIONS and ALINA GARCIA, SUPERVISOR OF ELECTIONS in her official capacity as Miami-Dade County Supervisor of Elections (collectively, "**Defendants**") and alleges:

I. NATURE OF THE ACTION

1. This is a civil action to enforce Plaintiff's right to inspect and copy specifically requested public records concerning the administration and reporting of the November 3, 2026 election in Florida's 26th Congressional District ("FL-26"). Plaintiff seeks access to responsive, existing, nonexempt records identified in the request attached as **Exhibit A**, together with any nonexempt portions of records for which a valid exemption is asserted. Plaintiff also seeks access to responsive, existing, nonexempt records identified in the request attached as **Exhibit B**, together with any nonexempt portions of records for which a valid exemption is asserted.
2. This action does not ask this Court to decide who won the congressional election, determine whether election interference occurred, compel Defendants to create a record or prepare a new analysis, or award damages. The issue is whether Defendants must provide access to the existing public records Plaintiff requested.

3. Plaintiff seeks the expedited hearing required by Section 119.11(1), Florida Statutes. Upon service of this complaint, Section 119.11(4) governs preservation of the records that are the subject of this action. Plaintiff also sent a preservation notice via email to Defendants on November 7, 2026, attached as **Exhibit C**, putting Defendants on notice of the obligation to preserve evidence in anticipation of litigation.

II. JURISDICTION AND VENUE

4. This Court has jurisdiction over this action to enforce Chapter 119 and to issue mandamus relief under Florida Rule of Civil Procedure 1.630. See art. V, § 5(b), Fla. Const.; §§ 119.11 and 26.012, Fla. Stat.
5. Venue is proper in Miami-Dade County because the Defendants are located there and the request was made to and partially responded to by that custodian there. See § 47.011, Fla. Stat., to the extent applicable.
6. The records request and the agency's response or nonresponse are attached as Exhibits A through L. The attachments are the portions of the record necessary to support this complaint under Florida Rule of Civil Procedure 1.630(b).

III. PARTIES

7. Plaintiff NICOLE LOCKLIN is an individual, and is a person entitled to inspect or copy public records under Article I, Section 24 of the Florida Constitution and Chapter 119, Florida Statutes. Plaintiff's address for service is nicole@locklinforcongress.com.
8. Defendant OFFICE OF THE MIAMI-DADE COUNTY SUPERVISOR OF ELECTIONS is subject to the Florida Public Records Act. The agency maintains, receives, or uses records concerning election administration and vote reporting for Miami-Dade County.
9. Defendant ALINA GARCIA, SUPERVISOR OF ELECTIONS is sued only in their official capacity as the records custodian and the official responsible for the records request. The custodian is responsible for responding to the request or has delegated that responsibility to the Records Management Section, Office of the Supervisor of Election, Government Affairs Division (no individual identified from the publicrecords@votemiamidade.gov email) and Oren Rosenthal, General Counsel for Miami-Dade County Supervisor of Elections.

IV. FACTS

10. On November 4, 2026 at 9:45p.m., Plaintiff submitted a public-records request to Miami-Dade County Supervisor of Elections Office under Chapter 119 via email. A true and accurate copy is attached as **Exhibit A**. The request sought the following existing records relating to the FL-26 contest in Miami-Dade County:

10(a). Immediately: Reports containing lists of Provisional Ballots, Uncured Ballots, Overseas and Military Ballots, and All Other Outstanding Ballots (e.g., received ballots not yet processed, including late-arriving ballots, challenged ballots, damaged ballots. etc.). The request noted these reports were required immediately as candidates in the election contest had until 5:00p.m. on November 5, 2026 to cure any mail-in/provisional ballots. *See* §§ 101.68, 101.048, Fla. Stat.

10(b). As soon as possible, for the period of November 3, 2026 through November 4, 2026:

1. All existing tabulation and election-management-system audit/event logs; batch processing and reconciliation reports; precinct closing results tapes; central-count reports; and records of ballot imports, uploads, rescans, adjudications, duplications, rejected batches, corrections, and additions or removals from reported totals. Include available timestamps, batch identifiers, precincts, ballot styles, voting methods, device identifiers, and ballot quantities.
2. Every retained version of the FL-26 results, including summary and precinct-level results, election-night reporting exports, results transmitted to the Florida Department of State, and records documenting when each version was generated, transmitted, or publicly posted. Include candidate totals, write-ins, undervotes, and overvotes where maintained.
3. Existing incident reports, discrepancy reports, correction records, and related communications documenting any change to FL-26 vote totals or reporting status during those two days, including the reason and authorization for each change where recorded.

11. Defendants received the request outlined in ¶10 above on November 4. A true and accurate copy of the acknowledgment of receipt is attached as **Exhibit D**.

12. On November 5, 2026 at 12:40p.m., Defendants produced only some records responsive to the "immediate" request outlined in ¶10(a) above. A true and accurate copy of this response is attached as **Exhibit E**. The response stated:

> "Good afternoon: Per your request, please find attached your voter data list containing Vote-by-Mail Discrepancy Report - District 26. This list has been generated in Excel format. Attached is our layout for your convenience. Please refer to the layout if you have questions about the data. Please be advised that certain data responsive to your request is exempt and/or confidential under Fla. Stat. § 119.0725(2), Fla. Stat. § 815.04(3), Fla. Stat. § 97.0585, the Cybersecurity Information Sharing Act of 2015, and/or the Department of Homeland Security's designation of election infrastructure as critical infrastructure. Such data is therefore excluded or redacted from this request. Should you require anything further, please feel free to contact us again."

13. On November 5, 2026 at 3:10p.m., less than two hours before the November 5, 2026 cure deadline, Defendants produced only some records responsive to the "immediate" request outlined in ¶10(a) above. A true and accurate copy of this response is attached as **Exhibit F**. The response stated:

> "Good afternoon: Per your request, please find attached your voter data list containing Provisional Ballots Report. This list has been generated in Excel format. Please be advised that certain data responsive to your request is exempt and/or confidential under Fla. Stat. § 119.0725(2), Fla. Stat. § 815.04(3), Fla. Stat. § 97.0585, the Cybersecurity Information Sharing Act of 2015, and/or the Department of Homeland Security's designation of election infrastructure as critical infrastructure. Such data is therefore excluded or redacted from this request. Should you require anything further, please feel free to contact us again."

14. On November 7, 2026 at 5:19p.m., Plaintiff provided Defendants with additional detail about specific information requested from Defendants under Section 119 to independently verify the reported vote totals for the election in Miami-Dade County's portion of FL-26. A true and accurate copy is attached as **Exhibit B**. This request specifically asked for the following to be produced:

    1. All Ballot images from all Election Systems & Software (ES&S) voting machines used in the entire election;
    2. The complete Cast Vote Record for Election Systems & Software (ES&S) voting system for the entire election;
    3. All Ballot images from the Clear Ballot Audit System (Clear Ballot) for the entire election;
    4. The complete Cast Vote Record for the Clear Ballot Audit System (Clear Ballot) for the entire election;
    5. A copy of the complete ES&S EL 45A SUMMARY REPORT - GROUP DETAIL ***with overvotes and undervotes for the entire election***;
    6. A copy of the complete ES&S EL30A PRECINCT REPORT - GROUP DETAIL ***with overvotes and undervotes for the entire election***;
    7. A copy of the complete ES&S EL52 NUMBERED KEY CANVASS REPORT;
    8. Copies of all complaints received from voters about undelivered or late-delivered vote-by-mail ballots;
    9. Copies of all internal and external emails, correspondence, texts, or other documents pertaining to unreceived/undelivered vote-by-mail ballots;
    10. An explanation as to why Broward County received 155,200 vote-by-mail ballots and had just 9,191 unreturned ballots, but Miami-Dade County received 196,615 vote-by-mail ballots and had 56,696 unreturned ballots as of 7 pm on Election Night.

15. Defendants received the request on November 7. A true and accurate copy of the acknowledgment of receipt is attached as **Exhibit G**.

16. Also on November 7, 2026, Plaintiff sent Defendants a preservation notice in light of potential litigation. A true and accurate copy is attached as **Exhibit C**. Defendants received and responded to the preservation notice on November 7. A true and accurate copy of the acknowledgment and response is attached as **Exhibit H**. Plaintiff replied to Defendants' response on November 7, requesting additional details on when Plaintiff could expect production of the required documents. A true and accurate copy of the reply is attached as **Exhibit I**. Plaintiff did not receive a response to that email.

17. Plaintiff sent a follow-up email to Defendants on November 9, 2026, requesting additional details on when Plaintiff could expect production of the required documents. In that same email, Plaintiff also requested an appointment to review documents in person. A true and accurate copy of that email is attached as **Exhibit J**.

18. Defendants received Plaintiff's November 9th email and responded the same day, stating "The Supervisor of Elections Public Records unit will get back to [Plaintiff] as appropriate." Defendants did not address the request for an appointment to review documents in person. A true and accurate copy of the acknowledgment of receipt is attached as **Exhibit K**.

19. On November 12, 2026, at 12:18p.m., Defendants produced only some records responsive to the "immediate" request outlined in ¶10(a) above. A true and accurate copy of this response is attached as **Exhibit L**. The response included an attached excel report labeled "*VBM Ballots Delivered Not Returned - Cong Dist. 26.xlsx*" and stated it "includes UOCAVA voters as well." *See* Exh. L.

20. As of November 12, 2026, the records requested above in ¶10(b)(1)-(3), and the records requested above in ¶14(1)-(10) remain unproduced, and without any timeline for their production. For any item withheld in whole or part, Defendants have not identified an applicable statutory exemption and have not provided the written explanation as to why records requested on November 4, 2026 and November 7, 2026 have not been produced.

21. Plaintiff has a good-faith basis to believe that responsive records exist because these records are required to be retained by Defendants in accordance with applicable law, Defendants were required to report results to the State Supervisor of Elections throughout election night, and Defendants use machines and software that take ballot images and keep logs of any adjustment down in votes recorded. Plaintiff does not allege that a record exists merely because it would be useful to the investigation.

22. The underlying subject is a federal congressional election. Publicly reported vote totals for the FL-26 contest appeared to decrease for Plaintiff on election night. Plaintiff seeks the records listed in Exhibits A and B, to determine what records Defendants maintain and what those records show. This contextual allegation is not an allegation that Defendants or any person interfered with the election. However, Plaintiff requires the records requested from Defendants to investigate the reason for the decrease in Plaintiff's vote total on election night before any applicable deadlines pass to contest the results of this election.

23. Plaintiff seeks inspection and copying for the purpose of obtaining access to public records and participating in this action to enforce that access. The request and this action are not brought primarily to cause a violation of Chapter 119 or for a frivolous purpose.

V. COUNT I — ENFORCEMENT OF CHAPTER 119 / MANDAMUS

24. Plaintiff realleges paragraphs 1 through 23.

25. Article I, Section 24(a) of the Florida Constitution and Section 119.07(1)(a), Florida Statutes, provide a right to inspect and copy public records, subject to applicable exemptions. Section 119.07(1)(c) requires a custodian to acknowledge requests promptly and respond in good faith, including making reasonable efforts to determine whether responsive records exist and where they can be accessed.

26. Plaintiff made a specific request; Defendants received it; the requested records exist because Defendant is required to maintain them under Florida election laws and Plaintiff is requesting vote totals, ballot images collected when ballots are scanned and counted, the Defendants' reports of those vote totals to various third parties throughout November 3, 2026 and, to the extent applicable, November 4, 2026, and any changes to reported vote totals, if any; and Defendants incompletely produced and/or are unreasonably delaying the responsive nonexempt records. The request and response are attached.

27. Plaintiff has a clear legal right to inspect and copy the requested records to the extent they are public and nonexempt, and Defendants have a ministerial duty to provide access to those records. The statute relating to cybersecurity that the Defendants cite in their November 5, 2026 responses (*see* Exhibits E-F) is not applicable to the records requested by Plaintiff. Mandamus is an appropriate remedy to compel performance of that duty, especially given the time sensitive nature of the underlying election, timing for certification of the election, and timing to formally contest the election results.

28. If Defendants contend that any record or portion is exempt, Section 119.07(1)(d)-(f) requires production of nonexempt portions after redaction and identification of the statutory basis for withholding. Plaintiff requested a written explanation for any withholding and none was provided.

29. The Court should issue an alternative writ of mandamus under Florida Rule of Civil Procedure 1.630(d), require Defendants to respond, and, after hearing, order access to the responsive nonexempt records. Section 119.11(1) requires an immediate hearing and priority over other pending cases.

VI. REQUEST FOR RELIEF

WHEREFORE, Plaintiff respectfully requests that the Court:

A. Set an immediate hearing under Section 119.11(1), Florida Statutes;

B. Issue an alternative writ of mandamus under Florida Rule of Civil Procedure 1.630(d), directing Defendants to show cause why access to the requested records should not be ordered;

C. After hearing, declare that the records identified in Exhibit A and Exhibit B are public records to the extent they were made or received in connection with official business and are not exempt or confidential;

D. Order Defendants to promptly produce the responsive, existing, nonexempt records identified in Exhibit A and Exhibit B, including any nonexempt portions of partially exempt records after legally required redactions;

E. If Defendants claim an exemption, require them to identify the statutory basis for each withholding and provide the written particularized explanation required by Section 119.07(1)(f);

F. Recognize that, upon service of this complaint, Section 119.11(4) prohibits transfer, alteration, destruction, or other disposal of the records that are the subject of this action until the Court directs otherwise, and that Plaintiff's November 7, 2026 preservation notice (Exhibit C) put Defendants on notice that the obligation to preserve evidence began no later than November 7, 2026;

G. Award reasonable enforcement costs and attorney fees under Section 119.12 only if the statutory requirements are met; and

H. Grant other relief the Court finds just and proper within this Chapter 119 action.

Respectfully submitted, November 12, 2026.

URGENT: FL-26 candidate public-records request — outstanding ballots and November 3–4 tabulation records

Nicole Locklin <nicole@locklinforcongress.com> Wed, Nov 4, 2026 at 9:45 PM
To: publicrecords@votemiamidade.gov, electiondata@votemiamidade.gov
Cc: Locklin for Congress Info <chris@locklinforcongress.com>, Locklin for Congress Info <info@locklinforcongress.com>, Melissa Cabral <melissa@locklinforcongress.com>

Dear Supervisor of Elections and Public Records Custodian:

I am Nicole Locklin, Democratic Nominee for Florida's 26th Congressional District, in the November 3, 2026 General Election.

Pursuant to Article I, section 24 of the Florida Constitution and Chapter 119, Florida Statutes, I request immediate electronic access to the following existing records concerning your county's portion of FL-26.

FIRST PRIORITY — PLEASE RELEASE AVAILABLE BALLOT STATUS RECORDS IMMEDIATELY

Please provide existing reports, spreadsheets, database exports, dashboards, or other records showing the following numbers, with their "as of" date and time, preferably broken down by precinct and ballot style:

1. **Provisional ballots:** Total cast; accepted; rejected; pending determination; and accepted but not yet tabulated. Include existing records identifying reasons for rejection or pending status.

2. **Uncured ballots:** Total vote-by-mail and provisional ballots with missing signatures, signature mismatches, or other curable deficiencies. Separately identify ballots still eligible for cure, cured and accepted, cured but awaiting review, rejected after attempted cure, and accepted but not yet tabulated. Include available deficiency codes, cure-receipt dates, voter-notification dates and methods, and disposition records.

3. **Overseas and military ballots:** Total issued/transmitted; received; accepted; rejected; pending review; and accepted but not yet tabulated. Separately identify overseas civilian voters, military voters overseas, and military voters within the United States, to the extent maintained. Include ballots received after Election Day, Federal Write-In Absentee Ballots, and existing records of issued ballots not yet returned. An unreturned ballot should be distinguished from a received ballot awaiting counting.

4. **All other outstanding ballots:** Existing inventory or reconciliation records identifying received ballots not yet processed, canvassed, adjudicated, duplicated, or tabulated, including late-arriving ballots, challenged ballots, damaged ballots, and ballots awaiting duplication or review.

Please provide records showing overlap among these categories where maintained, so the same ballot is not mistakenly counted more than once. If an FL-26 breakdown is not readily available, release available countywide records immediately, together with existing precinct/ballot-style identifiers permitting identification of FL-26.

SECOND PRIORITY — NOVEMBER 3–4 COUNTING AND RESULTS RECORDS

For November 3 and November 4, 2026, please provide:

5. All existing tabulation and election-management-system audit/event logs; batch processing and reconciliation reports; precinct closing results tapes; central-count reports; and records of ballot imports, uploads, rescans, adjudications, duplications, rejected batches, corrections, and additions or removals from reported totals. Include available timestamps, batch identifiers, precincts, ballot styles, voting methods, device identifiers, and ballot quantities.

6. Every retained version of the FL-26 results, including summary and precinct-level results, election-night reporting exports, results transmitted to the Florida Department of State, and records documenting when each version was generated, transmitted, or publicly posted. Include candidate totals, write-ins, undervotes, and overvotes where maintained.

7. Existing incident reports, discrepancy reports, correction records, and related communications documenting any change to FL-26 vote totals or reporting status during those two days, including the reason and authorization for each change where recorded.

ADDITIONAL RECORDS AND CANDIDATE ACCESS

8. Current ballot reconciliation reports showing ballots received/cast, accepted, rejected, pending, and counted by voting method; relevant Canvassing Board disposition records; and current schedules, notices, procedures, and deadlines for remaining canvassing, cure review, overseas-ballot processing, and any recount.

9. To the extent I am legally entitled to receive them as the candidate, existing voter-level cure and provisional-ballot status records sufficient to identify affected FL-26 voters and assist with lawful cure outreach, including available voter IDs, names, precincts, permitted contact information, deficiency reasons, notification history, and current status. Please identify immediately any required candidate application or authorization. Do not delay aggregate records while processing this item.

I also request the earliest available candidate inspection of ballot materials under section 101.572(2), Florida Statutes, including applicable voter certificates, cure affidavits, comparison signatures, duplicate ballots, and corresponding originals, consistent with statutory access conditions and restrictions on copying signatures. Please provide the access procedure and next available inspection time immediately.

PRODUCTION AND PRESERVATION

The imminent ballot-cure and canvassing deadlines make this request time-sensitive. Please acknowledge receipt promptly and provide the readily available first-priority records as soon as possible, with rolling production of the remaining records. Please do not hold readily available records until the entire request is complete.

This request seeks existing records and available exports; it does not require creation of a new analysis or report. Native electronic formats, including CSV or Excel for data and original electronic formats for logs, are preferred. Existing PDFs are acceptable if faster.

If any portion is exempt, produce the nonexempt portions and identify the specific statutory basis and reasons for withholding in writing. Please provide any itemized fee estimate promptly before incurring charges, and process readily available no-cost records separately.

Please preserve responsive records, including retained results versions, audit logs, batch records, ballot-status histories, and relevant communications, consistent with applicable retention requirements.

Please confirm the assigned custodian, request number, and earliest expected production time. If another custodian holds any requested records, please identify that custodian promptly and route the request where possible.

Thank you,

Nicole Locklin

Dear Supervisor of Elections Office and Public Records Custodian:

Pursuant to Florida Statute 119, we request the following records from the 2026 General Election:

1. All Ballot images from all Election Systems & Software (ES&S) voting machines used in the entire election.
2. The complete Cast Vote Record for Election Systems & Software (ES&S) voting system for the entire election.
3. All Ballot images from the Clear Ballot Audit System (Clear Ballot) for the entire election.
4. The complete Cast Vote Record for the Clear Ballot Audit System (Clear Ballot) for the entire election.
5. A copy of the complete ES&S EL 45A SUMMARY REPORT - GROUP DETAIL ***with overvotes and undervotes for the entire election***.
6. A copy of the complete ES&S EL30A PRECINCT REPORT - GROUP DETAIL ***with overvotes and undervotes for the entire election***.
7. A copy of the complete ES&S EL52 NUMBERED KEY CANVASS REPORT.
8. Copies of all complaints received from voters about undelivered or late-delivered vote-by-mail ballots.
9. Copies of all internal and external emails, correspondence, texts, or other documents pertaining to unreceived/undelivered vote-by-mail ballots.
10. An explanation as to why Broward County received 155,200 vote-by-mail ballots and had just 9,191 unreturned ballots, but Miami-Dade County received 196,615 vote-by-mail ballots and had 56,696 unreturned ballots as of 7 pm on Election Night.

Please produce responsive material on a rolling basis.

Thank you,
Nicole Locklin

Immediate preservation of FL-26 election evidence and clarification of reporting and outstanding ballot status

Nicole Locklin <nicole@locklinforcongress.com> Sat, Nov 7, 2026 at 10:39 AM
To: Oren.Rosenthal@votemiamidade.gov, Locklin for Congress Info <chris@locklinforcongress.com>, Melissa Cabral <melissa@locklinforcongress.com>

November 7, 2026

Via Email

Oren Rosenthal, Esq.
General Counsel
Miami-Dade County Supervisor of Elections
2700 NW 87th Avenue
Miami, Florida 33172

Re: Immediate preservation of FL-26 election evidence and clarification of reporting and outstanding ballot status

Dear Mr. Rosenthal:

I write concerning the November 3, 2026 election for United States Representative in Florida's 26th Congressional District ("FL-26") and the unresolved discrepancies in publicly reported vote totals. Our campaign is evaluating potential legal proceedings concerning the reporting and counting of votes. Please take immediate steps to preserve the evidence necessary to establish what occurred and provide the information described below.

Published election-night displays showed my districtwide total changing from 115,320 down to 112,320 votes. Separately, civicAPI publicly stated that Miami-Dade's reported total for me changed from 48,822 to 46,629. AP has attributed its reporting error to a manual error on its part. These are distinct discrepancies, and their relationship, if any, remains unresolved. We understand that your office's position is that it did not revise my reported total downward.

The underlying technical records are necessary to reconcile these accounts and determine where the disputed figures originated. This letter does not assume that a change in a publisher's display establishes a change in the official count.

1. Immediate preservation

Please implement and document an appropriate preservation hold covering relevant materials within your office's possession, custody, or control, including materials maintained on its behalf by county information-technology personnel, contractors, voting-system vendors, results-publication providers, hosting services, and other service providers.

The requested hold encompasses relevant evidence whether or not a particular item is classified as an election record subject to a 22-month minimum, an administrative record, a duplicate, a backup, or a routinely overwritten technical log.

In particular, please prevent relevant information from being lost through automated deletion, log rotation, overwriting, backup expiration, cache eviction, database maintenance, equipment reimaging, account closure, or vendor retention

limits. Preserve existing relevant contents before any necessary operational change affects them. Ordinary election operations should continue using preservation measures that protect the evidence.

For results-processing and publication records, the principal period is **November 2, 2026, through completion of canvassing and certification**, including subsequent corrections. Also preserve earlier-created configurations and records necessary to interpret the systems and settings in effect during that period. For ballot issuance and participation records, preserve the relevant records for the entire November 3 general-election cycle.

Please preserve the following, to the extent generated or maintained:

- **Published totals and underlying data:** Every retained version of Miami-Dade's FL-26 results posted, exported, uploaded, transmitted, or otherwise made available through county websites, dashboards, applications, feeds, APIs, downloadable files, media interfaces, or submissions to the Department of State. Include preliminary, intermediate, corrected, replaced, and final versions—not solely the currently displayed totals.
- **Publication and delivery history:** Upload and deployment logs; file and object version histories; publication timestamps; retained API responses and payloads; web-server, application, proxy, content-delivery-network, and cache logs; and records of outgoing transmissions, receipts, acknowledgments, validation failures, retries, and replacements.
- **Changes to results or their presentation:** Database audit and transaction logs; import and export histories; batch additions, removals, replacements, or reversals; manual edits and overrides; correction records; and changes to candidate identifiers, contest mappings, district assignments, precinct splits, ballot styles, aggregation rules, or display settings. Preserve available before-and-after values, timestamps, account identifiers, and approval records.
- **Access and access attempts:** Successful and unsuccessful authentication and access logs; account and permission requests, approvals, changes, and revocations; privileged-account activity; remote-access and vendor-support sessions; and retained records of access to or modification of relevant files, databases, applications, and publication systems. For public-facing results services, preserve available request logs, including requested endpoints, timestamps, response codes, and associated identifiers.
- **Errors and incident response:** System and application errors, warnings, rejected uploads, parsing or validation failures, discrepancies, outages, alerts, support tickets, incident reports, troubleshooting records, and corrective actions relating to Miami-Dade's FL-26 totals or the systems that processed or published them.
- **Underlying count and reconciliation:** Original precinct returns and tabulator reports; zero and closing reports; batch manifests; election-management-system exports; cast-vote records and ballot images, where generated; duplication and adjudication records; overvote and undervote reports; and records reconciling ballots received, accepted, tabulated, excluded, and credited to each candidate.
- **Communications:** Relevant communications with the Department of State, AP, civicAPI, media organizations, vendors, and county personnel concerning the disputed figures, data sourcing, corrections, reporting errors, or explanations provided to the campaign(s) or public. Preserve official-business communications regardless of the account, device, or messaging platform used, subject to applicable law.

Please retain native files and associated metadata, including available creation, modification, access, and transmission timestamps; timezone and clock-offset information; version identifiers; and existing integrity hashes. Where reasonably practicable, document preservation exports and their integrity. Screenshots or printed summaries should not replace existing underlying electronic evidence.

2. Documentation of the reported totals

Please provide the existing records necessary to reconstruct Miami-Dade's FL-26 reporting history, including:

- Each retained published or transmitted results version, with its timestamp and corresponding precinct, voting-method, and candidate totals; and any adjustment or correction.

- Records showing whether the figures **48,822** or **46,629** appeared in any county-generated report, export, feed, response, or transmission; their source and meaning; and any replacement or correction.
- Existing records identifying the systems, interfaces, vendors, and responsible personnel involved in generating, approving, transmitting, or publishing those totals.
- Relevant error, change, access, and support records identified above, and existing records supporting your office's conclusion concerning whether any reported total decreased.

Please provide readily available materials on a rolling basis in native or machine-readable form. Where an explanation requires additional investigation, please distinguish the explanation from what the existing records establish.

3. VBM requesters with no recorded return or other participation

Please provide an electronic list of voters in the Miami-Dade portion of FL-26 who requested a vote-by-mail ballot for the November 3 election and for whom, as of the stated extraction time:

1. No voted VBM ballot has been recorded as received; and
2. No participation has been recorded through early voting, Election Day voting, a provisional ballot, a federal write-in absentee ballot, or another recognized voting method.

Please include, where maintained and lawfully available, the voter's name, voter-registration identifier, precinct and split, congressional-district assignment, VBM request and issuance dates, delivery method, ballot tracking or disposition status, and any cancellation, replacement, undeliverable-mail, or participation-status notation relevant to inclusion on the list.

Please distinguish **no return recorded** from **returned but rejected, uncured, pending review, or not yet tabulated**. Also distinguish provisional ballots or participation records still awaiting reconciliation so that an incomplete data update is not presented as confirmed nonparticipation. This concerns participation status, not the contents of any voter's ballot.

The VBM-related information is sought in connection with my candidacy and the campaign's election follow-up. Please advise immediately if your office requires additional credentials, an authorized-recipient arrangement, or other documentation, or believes the post-election timing affects access. Please identify the specific legal basis for any limitation.

If a combined list is not maintained or readily available through an existing report or export, please provide the lawfully available underlying VBM-status and participation files, with the identifiers and field definitions necessary to reconcile them.

4. Outstanding overseas ballots and remaining ballot categories

Please provide the most current available accounting for overseas voters eligible to vote in Miami-Dade's portion of FL-26, stating the data cutoff and distinguishing:

- Unique voters issued or transmitted an overseas ballot, with replacements separately identified to avoid double-counting.
- Ballots not yet recorded as returned.
- Ballots received by Election Day and ballots received afterward.
- Ballots accepted and tabulated, received but awaiting review or tabulation, and rejected, with reason categories.
- Federal write-in absentee ballots and their reconciliation with subsequently received official ballots.

Please distinguish overseas civilian and overseas military voters from absent military voters located within the United States. Identify the number of still-unreturned ballots potentially eligible for the overseas receipt period, and explain

any limitations on determining whether those ballots were timely mailed.

Please confirm the applicable receipt deadline, the remaining canvassing schedule, and when updated figures will be available. Separately provide current Miami-Dade FL-26 counts for pending provisional ballots, returned VBM ballots with unresolved signature issues or other defects, and any other received ballots not yet included in reported totals.

5. Confirmation and coordination

Please acknowledge receipt and confirm preservation measures within **24 hours**, identifying a coordinating contact and the anticipated schedule for providing the readily available information. This is a requested response time based on the risk of evidence loss and approaching election deadlines.

If relevant information was never generated, is no longer retained, or is held by another entity, please identify the affected category, custodian or provider, applicable retention practice, and known timing and circumstances of any loss or disposition.

Preservation should proceed while any disclosure, confidentiality, security, or privilege issue is addressed. For material your office believes cannot be provided, please identify the applicable legal basis and provide any reasonably segregable information through an appropriate secure process.

Our immediate objective is a verifiable account of the reporting history, an accurate understanding of outstanding ballots, and preservation of the evidence needed to evaluate available remedies. All rights and remedies are reserved.

Sincerely,

Nicole Locklin

Good afternoon:

Per your request, please find attached your voter data list containing Vote-by-Mail Discrepancy Report - District 26.

This list has been generated in Excel format. Attached is our layout for your convenience. Please refer to the layout if you have questions about the data.

Please be advised that certain data responsive to your request is exempt and/or confidential under Fla. Stat. § 119.0725(2), Fla. Stat. § 815.04(3), Fla. Stat. § 97.0585, the Cybersecurity Information Sharing Act of 2015, and/or the Department of Homeland Security's designation of election infrastructure as critical infrastructure. Such data is therefore excluded or redacted from this request.

Should you require anything further, please feel free to contact us again.

Thank you.

Best Regards,

Edvin Moreno, Elections Operations Clerk

Subject: URGENT: FL-26 candidate public-records request — outstanding ballots and November 3–4 tabulation records

You don't often get email from nicole@locklinforcongress.com. Learn why this is important

Dear Supervisor of Elections and Public Records Custodian:

I am Nicole Locklin, Democratic Nominee for Florida's 26th Congressional District, in the November 3, 2026 General Election.

Pursuant to Article I, section 24 of the Florida Constitution and Chapter 119, Florida Statutes, I request immediate electronic access to the following existing records concerning your county's portion of FL-26.

FIRST PRIORITY — PLEASE RELEASE AVAILABLE BALLOT STATUS RECORDS IMMEDIATELY

Please provide existing reports, spreadsheets, database exports, dashboards, or other records showing the following numbers, with their "as of" date and time, preferably broken down by precinct and ballot style:

1. **Provisional ballots:** Total cast; accepted; rejected; pending determination; and accepted but not yet tabulated. Include existing records identifying reasons for rejection or pending status.
2. **Uncured ballots:** Total vote-by-mail and provisional ballots with missing signatures, signature mismatches, or other curable deficiencies. Separately identify ballots still eligible for cure, cured and accepted, cured but awaiting review, rejected after attempted cure, and accepted but not yet tabulated. Include available deficiency codes, cure-receipt dates, voter-notification dates and methods, and disposition records.
3. **Overseas and military ballots:** Total issued/transmitted; received; accepted; rejected; pending review; and accepted but not yet tabulated. Separately identify overseas civilian voters, military voters overseas, and military voters within the United States, to the extent maintained. Include ballots received after Election Day, Federal Write-In Absentee Ballots, and existing records of issued ballots not yet returned. An unreturned ballot should be distinguished from a received ballot awaiting counting.
4. **All other outstanding ballots:** Existing inventory or reconciliation records identifying received ballots not yet processed, canvassed, adjudicated, duplicated, or tabulated, including late-arriving ballots, challenged ballots, damaged ballots, and ballots awaiting duplication or review.

Please provide records showing overlap among these categories where maintained, so the same ballot is not mistakenly counted more than once. If an FL-26 breakdown is not readily available, release available countywide records immediately, together with existing precinct/ballot-style identifiers permitting identification of FL-26.

SECOND PRIORITY — NOVEMBER 3–4 COUNTING AND RESULTS RECORDS

For November 3 and November 4, 2026, please provide:

5. All existing tabulation and election-management-system audit/event logs; batch processing and reconciliation reports; precinct closing results tapes; central-count reports; and records of ballot imports, uploads, rescans, adjudications, duplications, rejected batches, corrections, and additions or removals from reported totals. Include available timestamps, batch identifiers, precincts, ballot styles, voting methods, device identifiers, and ballot quantities.
6. Every retained version of the FL-26 results, including summary and precinct-level results, election-night reporting exports, results transmitted to the Florida Department of State, and records documenting when each version was generated, transmitted, or publicly posted. Include candidate totals, write-ins, undervotes, and overvotes where maintained.
7. Existing incident reports, discrepancy reports, correction records, and related communications documenting any change to FL-26 vote totals or reporting status during those two days, including the reason and authorization for each change where recorded.

ADDITIONAL RECORDS AND CANDIDATE ACCESS

8. Current ballot reconciliation reports showing ballots received/cast, accepted, rejected, pending, and counted by voting method; relevant Canvassing Board disposition records; and current schedules, notices, procedures, and deadlines for remaining canvassing, cure review, overseas-ballot processing, and any recount.
9. To the extent I am legally entitled to receive them as the candidate, existing voter-level cure and provisional-ballot status records sufficient to identify affected FL-26 voters and assist with lawful cure outreach, including available voter IDs, names, precincts, permitted contact information, deficiency reasons, notification history, and current status. Please identify immediately any required candidate application or authorization. Do not delay aggregate records while processing this item.

I also request the earliest available candidate inspection of ballot materials under section 101.572(2), Florida Statutes, including applicable voter certificates, cure affidavits, comparison signatures, duplicate ballots, and corresponding originals, consistent with statutory access conditions and restrictions on copying signatures. Please provide the access procedure and next available inspection time immediately.

PRODUCTION AND PRESERVATION

The imminent ballot-cure and canvassing deadlines make this request time-sensitive. Please acknowledge receipt promptly and provide the readily available first-priority records as soon as possible, with rolling production of the remaining records. Please do not hold readily available records until the entire request is complete.

This request seeks existing records and available exports; it does not require creation of a new analysis or report. Native electronic formats, including CSV or Excel for data and original electronic formats for logs, are preferred. Existing PDFs are acceptable if faster.

If any portion is exempt, produce the nonexempt portions and identify the specific statutory basis and reasons for withholding in writing. Please provide any itemized fee estimate promptly before incurring charges, and process readily available no-cost records separately.

Please preserve responsive records, including retained results versions, audit logs, batch records, ballot-status histories, and relevant communications, consistent with applicable retention requirements.

Please confirm the assigned custodian, request number, and earliest expected production time. If another custodian holds any requested records, please identify that custodian promptly and route the request where possible.

Thank you,

Nicole Locklin

Ms. Locklin,

Thank you for your e-mail. The Office of the Miami-Dade Supervisor of Elections maintains applicable elections materials in accordance with federal and state law. To assist you in your efforts to establish what has occurred, you may want to ask the Associated Press to preserve their records as they have already acknowledged that any error was in their reporting. To the extent this is a request for public records I am forwarding your request to the appropriate public records contact in our office who will respond as set forth in Florida law.

Good afternoon,

Thank you for contacting the Office of the Supervisor of Elections with your public records request.

Per your request for items 3 and 4, please see attached excel report labeled "*VBM Ballots Delivered Not Returned - Cong Dist. 26.xlsx*" which combines items 3 and 4 and includes UOCAVA voters as well.

To understand the layout for the excel file please see the attached pdf labeled "*LAYOUT.pdf*"

Additionally, certain documents responsive to your request are exempt and/or confidential under F.S. 119.0725 and 119.071(3)(a)1, such documents are therefore excluded or redacted from this request.

We are currently gathering the remaining items and those will be available as soon as practicable. Please note that Per F.S. 119.07(3)(d), if a complex public records request requires a staff member to be solely dedicated to either supervise the public records during a public viewing or to work on the production of the requested documents for an extended period of time, the Miami-Dade County Office of the Supervisor of Elections" may charge the labor cost of the personnel providing the service that is actually incurred by the agency or attributable to the agency for the clerical and supervisory assistance required …". In such a case we will forward a quote pending your payment prior to commencing work.

We thank you for your understanding and if we may be of any additional assistance, please do not hesitate to contact our office.

Regards,
